

SECTION I

GENERAL

A. JURISDICTION

These rules and regulations governing the construction of roads and streets shall apply within the planning jurisdiction Fayetteville Municipal-Regional Planning Region.

B. PURPOSE

The purpose of these specifications is to establish standards of design and construction, including construction procedures and quality of materials, that are adequate to assure the safety, convenience, and welfare of the people within the planning jurisdiction.

C. DEFINITIONS

1. Local Government - The city or county government having jurisdiction within the area where a development is located.
2. Public Works Director - That individual designated by the local government to receive and review plans submitted in conformance with the provisions of this section.
3. Enforcing Officer - That individual designated by the chief executive officer of the local government to enforce these provisions.
4. Standard Specifications - Standard Specifications for Road and Bridge Construction, Tennessee Department of Transportation, Bureau of Highways, Nashville, Tennessee, September 1, 1995, and subsequent revisions and additions.
5. A.A.S.H.T.O. - American Association of State Highway and Transportation Officials.
6. A.S.T.M. - American Society for Testing Materials.
7. Licensed Professional - Individual as certified by the State of Tennessee to include surveyors or engineers.

D. APPROVALS

All construction plans shall be prepared and submitted to the local Public Works Director. The content and submission procedure shall be as set forth in SECTION II, PLANNING.

E. ACCEPTANCE

Acceptance for public maintenance of any facilities or improvements located within any subdivision may only be accomplished by formal action of the governing body in the manner established in Subsection 4-101.7, Basic Regulations. Any approval of plans, etc., submitted in conformance with these provisions, shall not in any manner bind or presuppose acceptance of these facilities by the governing body.

F. RESPONSIBILITY FOR COMPLIANCE

In all matters involving enforcement of, or compliance with, the provisions contained herein, the subdivider (as defined in Basic Regulations, Section 1-102) is considered as the party legally responsible for performance; and the use of engineers, surveyors, contractors, or other agents shall in no way diminish or absolve the subdivider of this basic responsibility.
